Page: 1 of 6

1 RESEARCH CAPABILITIES

- Data Mining & analytics
- Clinical trial support
- Outcome tracking
- Predictive modeling
- Publication assistance

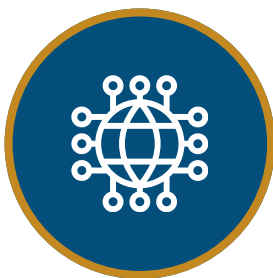

2 CLINICAL SUPPORT

- Triage support tools
- Patient risk stratification
- Care pathway optimization
- Quality improvement initiatives
- Interdisciplinary collaboration

3 INSTITUTIONAL BENEFITS

- Enhanced efficiency
- Increased research productivity
- Cost savings
- Competitive advantage

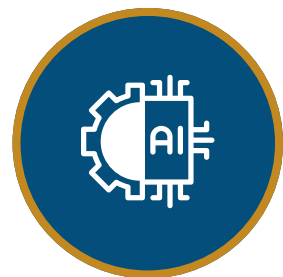

PACKAGE :

A. PADIREPO SYSTEM

B. DATA SCIENCE SERVICES

**C. ARTIFICIAL INTELLIGENCE
ALGORITHM SERVICES**

OPTIMIZE IMAGE MANAGEMENT WITH SUPPLEMENTARY CLOUD IMAGING

WHO BENEFITS MOST ?

Medium to large institutions already equipped with PACS systems looking for seamless integration and enhanced functionality.

KEY FEATURES

- **Cloud-Enabled Collaboration**

Create personalized groups for teaching, team case reviews, or specialized tasks

- **Integration & External Image Uploads**

Connect with your existing PACS for efficient case referrals and second opinions

- **Advanced Image Management**

Anonymize, delete selected studies or sequences without altering the original raw data

KEY BENEFITS

- ✓ **Cost-Effective:** Avoid expensive PACS upgrades by supplementing with targeted solutions
- ✓ **Flexibility:** Tailored for specific use cases like multi-disciplinary meetings (MDTs) or teaching groups
- ✓ **Efficiency:** Streamline workflows and reduce turnaround times for critical tasks

Why Choose Us ?

1. **Complement, Don't Replace:** Enhance your current PACS without the high cost of system upgrades
2. **Specialized Support:** Ideal for handling second opinions, referrals, or teaching without burdening your primary system
3. **Broad Compatibility:** Fully compatible with major PACS providers.

DIGITAL IMAGING WITHOUT THE OVERHEAD

WITH ESSENTIAL CLOUD IMAGING

WHO BENEFITS MOST ?

- Perfect for clinics, diagnostic centers, and specialty practices with minimal imaging needs
- Institution transitioning to digital imaging without heavy investments

KEY FEATURES

Cloud
Storage

Card

Why Choose Us ?

1. **Cost Savings:** Reduce imaging management costs by up to 20% compared to traditional systems
2. **Fast Deployment:** Set up and operational within 5 working days, no extensive IT support required
3. **Low Storage Costs:** Cloud storage starting at just RM100 per GB/month, scalable as your needs grow
4. **Improved Efficiency:** Save up to 30% of reporting time with streamlined workflows
5. **Accessibility:** Access imaging data anytime, anywhere, with 97% uptime reliability
6. **Patient Satisfaction:** QR Share Card improves patient communication by 20%, enhancing the overall experience
7. **Seamless Integration:** Compatible with 90% of existing systems, ensuring effortless adoption
8. **Scalability:** Designed to grow with your practice, supporting up to 5X your current imaging volume.
